"We are appalled at the fact that \$300,000,000 were lost in the calamity at San Francisco, but are we appalled at the fact that annually \$1,200,000,000 are spent for whiskey which in no way helps humanity.

"We are grieved at the loss of 800 souls there, but are we grieved at the fact that each year 10,000 souls fill drunkards' graves. Men, how can you in the face of this, vote for whiskey on May 5?"—Rev. J. T. Lewis in his sermon last Sunday night.

NEW SAN FRANCISCO TO ARISE.

San Francisco, April 23.—A sharp earthquake shock was felt here at 10:39 o'clock. It lasted about three seconds and was from east to west. No damage has been reported.

San Francisco, April 23.—The new San Francisco, which will rise from the ashes of the old, was in its first stages of rebuilding to day. After five days of confusion and almost superhuman effort on the part of citizens of California's metropolis, the great task of sheltering, feeding and otherwise caring for the homeless thousands, complete order has been re-established and attention turned to the future.

Many scientists believe that there was no connection between the California earthquake and the eruption of Mt. Veuvius.

There was no famine; many suffered from hunger but were soon relieved by government rations.

Frisco took fire just after the earthquake on Wednesday morning last which came at 5:13 a. m. The fire burned until Saturday when it was thought the flames had been spent, soon after they took fire anew and are still raging.

Barren & Bailey's circus, which is now playing in Brooklyn sent its big wagons over New York and gathered supplies and food for Frisco.

The burned city has taken on courage and will rebuild better and stronger, so says a proclamation from the Mayor.

Most of the bank vaults were intact and no damage was done to the money. Many bankers removed their cash while the fire was raging.

Many Breckenridge country people reside in the State of California. Charles P. Sawyer is the only one known to reside in Frisco.

CLOVERPORT BOY AT FRISCO SAFE.

Chas. P. Sawyer, son of Mrs. F. H. Sawyer of this city, who has resided in San Francisco six years, sends the following telegram home. Mr. Sawyer kept a fine down-town restaurant in Frisco with his partner, Mr. Haas. The family suffered much anxiety about Mr. Sawyer not having heard from him until Monday. The telegram was given in at Oaktown, April 20 but did not reach here until April 22.

Oakland, Cal., April 20.—Mrs. F. H. Sawyer, Cloverport, Ky.,—safe—saved trunk—restaurant gone—insured—city burned—great loss.

C. P. Sawyer.

Miss Virginia Hovious, of Half Moon Bay, Cal., thirty miles from Frisco, who is related to the Raffertys and the Millers of this city, and who visited here several years ago, has not been heard from. Miss Hovious was very popular here.

DAN ROBERTS IS DEAD.

Ekron, Ky., April 23.—Mr. Daniel S. Roberts departed this life April 17. He was a victim of paralysis, having had several attacks during the last few years of his life. He was born in Meade county in the year of 1856 and was married to Miss Maria Hardin, of Breckenridge county, who passed away in the year of 1904. Four daughters, Mrs. Ophelia Willett, of Elizabethtown, Mrs. Dr. J. P. Shacklette, of Garrett, Mrs. Jennie McGhee, of Long Branch, and Mrs. Bettie Richardson, of this place, survive him.

Mr. Roberts was a highly respected and much beloved citizen. He had been a faithful christian worker in the Baptist church for fifty years, holding his membership with Buck Grove church. His church and christian duties did not stop within the limits of his own church but was ever ready to help others. In building our church at Ekron he was one of the first men to donate fifty dollars. Early in his christian career he was appointed a member of the home mission board in which body he was a useful and active member.

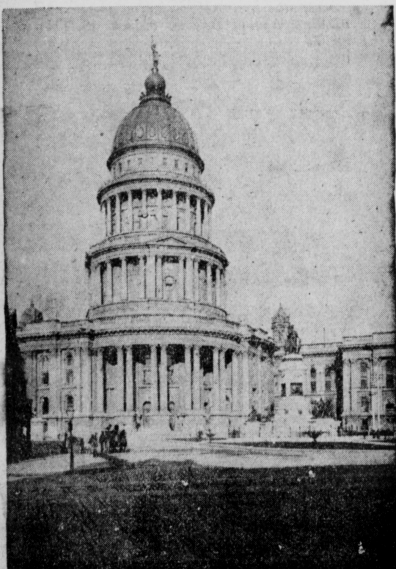

Mr. Roberts funeral was preached by Rev. Bonnie again assisted by Revs. Kimble Willett and Shacklette. His remains were laid to rest in Buck Grove cemetery to await the resurrection morn.

CHOICE SOULS IN HARDINSBURG.

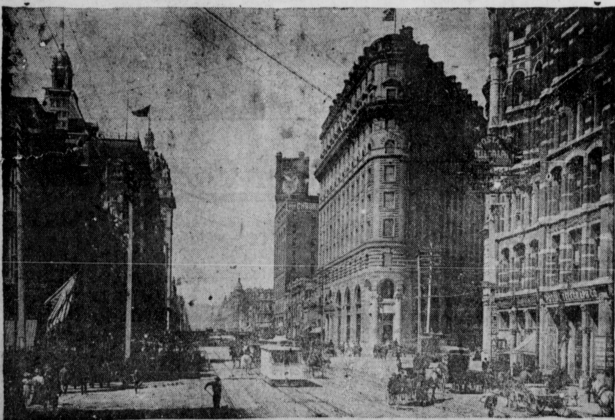

Dear Central: I have just closed a good meeting with G. S. King at Hardinsburg. The weather was the worst I ever saw to hold a meeting in, but despite the rain the people came, and we had, not a sweeping revival but a good meeting, which will bless the entire town and add strength to every department of the church. Not more than thirty professed during the meeting, and not so many as that joined the church. I found some choice souls at Hardinsburg. I shall never forget them in their loyalty to me and the meeting. King is one of the best most solid men I've assisted. He's firm, but kind and aggressive. He's a man who loves the truth and will stand by a man when its being preached. He said I'd help him again, and I hope its so. A letter from Sister Tola Daniels says the influence of the meeting is being felt in every department of the church work. I am at this writing in the Kentucky Conference with W. L. Selby in what promises to be a great meeting. This makes four or five meetings with him in nine years. I am yours in the work to stay.

Birthday Dinner.

Chenault, Ky., April 23.—Mr. and Mrs. C. L. Warren gave a birthday dinner at their hospitable home Saturday April 21, in honor of their youngest daughter, Eva; also their grandchildren the little wee-wee's of Mr. and Mrs. Joseph Greenwell.

The day was most delightfully spent in entertaining the little ones which was interspersed and enlightened by good time. A most elegant dinner was served and many presents were given to the little ones.

Among those present in response to the wishes of the hostess, were Miss Margaret Stallman and little nephew, J. W. Warren, Mrs. G. B. Cunningham and grand-children, Nannie Lee and G. B. Gardner, Mr. and Mrs. Joseph Greenwell and sons, Carl and Kenneth. The day certainly was enjoyed by a good time.

Sympathetic services were held over the country Sunday for California. The local churches offered prayers for the city: Rev. Currie devoted his Sunday night service to it at which a collection was taken, \$15 was raised. The money will be forwarded to Frisco.

STEPHENSPOORT.

Rev. Gibbons, filled his regular appointment Sunday at the M. E. church.

J. D. Brashear, of Cloverport, spent the day here Sunday.

Miss Verna Bennett spent Saturday and Sunday with her parents, at Chenault.

Mr. and Mrs. W. Courtney, of Owensboro, arrived Sunday to be with guests of Mrs. M. L. Roberts.

Ed. Atkinson has moved in his new cottage which is quite an improvement to the town.

Miss Mary Bell Basham has returned home after a few days stay with her aunt, Mrs. R. A. Shellman.

Dave Walls, of Hazeldell, was in town Saturday.

Allen Lewis is still improving.

Lewis Brown came down from Louisville last week to see his brother's children who have been sick.

The graduation examination will be held here in May.

The protracted meeting closed Wednesday night at the M. E. church with five additions.

Mrs. George Raborn, of Tell City, has been visiting her daughter, Mrs. Ed. Stiles.

Mrs. Annie Crawford visited her daughter, Mrs. H. S. English, Jr., of Roberts Bottom, Tuesday.

HARDINSBURG.

The Ladies' Fireside Club and a few invited guests were entertained Saturday evening by Mr. Thomas J. Moore. He was assisted in receiving by Mrs. Joel H. Pile and Miss Minnie Murray. Forty-two was played, the prize winners being Misses Ava Lee Board and Dr. E. F. Day. The evening was much enjoyed by all the guests.

The third annual big Masonic picnic will probably be given on the first Saturday in August next.

Mrs. Gas D. Shellman and children left Monday for Gulfport, Miss., where they will be the guests of Mr. and Mrs. Charles Scott, they will also attend the Confederate Reunion at New Orleans.

G. P. Macy has purchased of Abner Goodman his farm laying two miles out on the Louisville road. The consideration was \$600.

M. J. Thomas has set up a fine barber shop on Main street, the fixtures are new and up-to-date.

Boys, Stay With The Old Farm.

Note--This article was written especially for the News. Mr. Ditto having been reared on a farm and left it for the city, naturally is able to handle the subject.--Editor.

There is no higher calling on earth than that of an honest, intelligent farmer. If the boys on the farm could be made to realize the fact that if they would apply themselves to the farm each day in the year as the city business man applies himself to his business, they would reap wonderful results. If he would do this he would have an interest in the planting of his crops, the breeding of his stock would be better. MORE MONEY WOULD BE MADE AND FARM LIFE WOULD BE A PLEASURE TO THE YOUNG, AMBITIOUS MAN.

In farm life there is monotony. The boy is of a restless nature. His youthful ambition creates in him a desire to move on. To go some place where he can see results. The farm boy hears of the big salaries that the city boy receives each month in cold, hard cash and this discourages the farm boy. Seemingly he is making so little that he concludes that the farm is a poor place for him to try to get on in the world.

The farm boy, discouraged with the slow progress he is making on the farm, turns to the city. He goes there blind to the expenditures NECESSARY TO SUSTAIN HIMSELF THERE. He has the large salaries he was told of down on the farm in mind. The farm boy is looking for the gold he has long coveted. HE GETS THE GOLD BUT AT THE END OF THE YEAR NOT THREE OUT OF TEN OF THOSE BOYS WHO GO TO THE CITY HAVE A CENT TO BALANCE THE PROFIT SIDE OF THE LEDGER EITHER IN DOLLARS OR HAPPINESS OR BETTER LIFE.

The city possesses more alluring fascinations for the young man than the farm but in after years when his hair begins to turn gray the once young man looks back and says: "WHAT HAVE I GAINED?" The young man has probably seen more of life--he has probably seen more grand opera, more fine spectacles, more fine houses, more of the shine of life, and to the looker on, has seemingly enjoyed life more. But bless your soul when you sum up the constant daily hours he has spent in the city and vexation of dealing every day with man and many kinds of men at that, THE YOUNG MAN COMES TO THE CONCLUSION THAT THE CITY LIFE IS NOT ONE OF THE SWEET PLEASURES OF THE WORLD. He finds city life very different from the good old days when he was doing business with old "Betsy" and following the plow.

Only a few days ago I was talking with one of my neighbor boys who had left the farm and taken up his lot with the thronging multitudes in one of our large cities. This man said to me: "I AM MAKING LOT OF MONEY BUT THE WORRY I HAVE WITH BUSINESS AND THE EXPENSE OF LIVING IS ENOUGH TO DRIVE ME CRAZY."

It is just so. There is much sentiment in a happy boy life on the farm that a CITY BOY DOES NOT POSSESS. The farm boy has all of nature's wealth which she gives forth bountifully to make him happy. The rippling brooks, the grassy plains, the fresh trimmings of mother earth in which to sow a few seeds and from which to reap a bountiful harvest. The bleat of the little innocent lambs, the belting of the cow, the quacking of the duck and the sweet music of the fleet birds with the chiming of mother's sweet voice at the churn or whilst she is mending a few holes in the socks or pantaloons. Get away from God's natural way of life and you get into a made-up life in which there is no real, genuine, good, old happy thoughts and merry laughter.

The city boy knows but little beyond man's hand. GIVE ME THE COUNTRY BOY FOR ANYTHING. I can soon if necessary, make a city boy out of him but you can never make a real, first-class country boy out of a city lad. The city boy and the hot harvest fields never seem to find harmony with each other. There are a lot of country boys who go to the cities and pile up money. BUT MONEY DOES NOT GIVE PEACE OF MIND AND HAPPINESS IN EVERY CASE.

LET THE COUNTRY BOY GIVE AS MUCH TIME AND APPLICATION TO THE FARM AS THE BUSINESS MAN DOES TO THE BUSINESS OVER WHICH HE HAS CONTROL AND THEN SEE WHICH OF THE TWO WILL HAVE THE MORE HAPPINESS AND REAL SOLID COMFORTS OF LIFE AT FIFTY YEARS OF AGE.

JOHN T. DITTO.

In having been stated that the annual drink bill of Germany is \$672,000,000, an American trade paper says that of this country is \$1,323,000,000. But the United States is bigger and pays more for variety.

Under the irrigation law passed in 1903 the amount of money appropriated from the sale of public lands is \$27,000,000, and numerous large projects are making rapid headway. Irrigation is more fortunate than river improvement in the size and steadiness of the supply of cash.

SPELLING REFORM.

Mr. Carnegie is taking some practical steps to have our English spelling reduced to a phonetic basis. It is an ample field of labor for a millionaire. That it will cost money to get the English-speaking world away from the use of superfluous letters can be guessed without saying. If we pass with any of them it will only be for a price. Mr. Carnegie, who has the price, and who has also an opinion that it is a disgrace to die rich, may even reduce him to the dimension of a needle's eye in his great work of spelling reform.--St. Louis Globe Democrat.

Men Past Sixty in Danger.

More than half the men over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Royley Burnett, 2006 Port, Mo., writes: "I suffered with enlarged prostate gland and kidney troubles for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old."--A. R. Fisher.

ST. LOUIS LIVE STOCK MARKET

Reported By Evans-Snyder-Buel Co Live Stock Commission Agent.

Special to the News--National Stock, Yards, Ill., Apr. 18th.--The cattle trade, this week has developed into a dull lifeless condition that is hard to describe and the indifference displayed by the buyers can only be realized by those having cattle on sale. The eastern demand is practically eliminated the local buyers, but packers and butchers demand a very limited number at greatly reduced values. Most of the beef steers changed hands slowly at prices fully 25 cents lower than a week ago. Receipts were pretty heavy at other markets and while we had only a modest supply it took the whole day to dispose of them. The clearance is poor each day with a good many bids flatly refused.

The same condition prevails in the butcher cattle trade as on beef steers and prices on cow and heifer stuff is at the low point for several weeks past. Some extra good handy weight heifers sold for \$4.65 with the bulk of the good 200 to 300 lb. steers and heifers at round \$4.30. Fair to good canners and cutters \$3.15 to \$3.00.

The trade in the stocker and feeder division is so light that it is useless to make quotations. The hog market has made its usual advance. Receipts have been light and prices are now at the high point for three years past an extreme top of \$6.80 having been reached, with the bulk of the good hogs selling from \$6.60 to \$6.70. Most of the weights below 150 lb. sold from \$5.00 to \$6.00 with best pigs at \$5.30. The demand is good at these prices and hogs should continue to sell satisfactorily for some time to come.

The sheep market continues good and fully three times the number received could be handled to advantage. Good native sheep are selling around \$5.75 and spring lambs \$7.50 to \$8.50.

Further and more complete information may be had from Evans-Snyder-Buel Co.

Don't tie a cough or a cold up your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Balm and Tar. It is offered from all other cough syrups. It is better. It opens the bowels--expels all cold from the system, relieves cough, colds, croup, whooping cough, etc. An ideal remedy for young and old. Children like it. Sold by all druggists.

A flurry in arresting lynchings, it not followed by their proper trial and punishment, would place law order at the mercy of mobs.

It is useless to pass laws if lynchings are to be supreme, and foolish to build jails if mobs with wattering rams may smash them open at will.

If you ever bought a box of Witch Hazel Salve that failed to give satisfaction the chances are it did not have the name "E. C. DeWitt & Co." printed on the wrapper and pressed in the box. The original DeWitt's Witch Hazel Salve never fails to give satisfaction for burns, sores, boils, tetters, cracked hands, etc. For blind bleeding, itching and protruding piles it affords almost immediate relief. It opens the pain. Sold by all druggists.

In the attempt of a mob to storm a Pennsylvania jail the men on guard fired, killing four of the rioters and wounding twenty. The jail is still intact.

WORKING WOMEN

Their Hard Struggle Made Easier--Interesting Statements by a Young Lady in Boston and One in Nashville, Tenn.

All women work; some in their houses, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties, in many cases, quickly drags them into the horrors of all kinds of female complaints, tumors, ulceration, falling and displacements, or perhaps irregularity or suppression, causing backache, nervousness, irritability and lassitude. They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Miss F. Orser, of 14 Warren Street, Boston, tells women how to avoid such suffering; she writes:

Dear Mrs. Pinkham--I suffered miserably for several years with female irregularities. My back ached; I had bearing-down pains, and frequent headaches. Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

MARIAN MARNE'S SPRING FASHIONS.

The Latest Dictum in Styles--
Suesine Silk a Successful Inno-
vation--The Secret of Har-
monious Dressing.

The fashions of the moment possess so many variations diverse and subtle which lend themselves freely to our characteristic American individualities, that it is almost impossible for any one but the well initiated to realize what makes up the harmonious whole--the something that makes one woman look much better dressed than another and gives the fashions of the present day their full appeal.

To begin with the color question is carefully studied out. Either everything is in one tone or there is some contrast introduced so cleverly as not to make any discordant note, but rather to emphasize and bring out any good point that may exist. Trimmings are elaborate, but they too harmonize with the gown and either make or mar it.

The skirts of street frocks are unquestionably less voluminous than they threatened to be and in some instances were. They are, in a vast majority of the best models, smooth fitting over hips, and, though they flare considerably and the flare begins considerably below the hip curve, there is nothing extreme in the general outline.

The bolero retains so firm a foothold that it would take a general revolution in fashion to oust it, and the revolution is highly improbable.

Silk remains the most popular fabric for gowns for every occasion, and Suesine is a conspicuous silk in all the shops as well as in the costumes emerging daily from our most fashionable models for ladies' summer wear. For the closely draped bodices in vogue now it is an ideal material because of its characteristic suppleness. Suesine silk of an exquisite shade of lilac was the fabric selected for the chic, softly flowing model of my illustrations, and expresses a type of buoyancy that appeals to the woman of taste. Suesine silk is one of the most successful innovations, in that it is inexpensive, being composed of a skillful combination of silk and cotton, which lends to it all the effectiveness of the finest silk, while

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and

wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything, but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospitals, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

The regular fifty cent and Home of Swamp-Root dollar size are sold by all good druggists.

Don't make any mistake; remember the name, Swamp-Root, Dr. Kilmer's Swamp Root, and the address, Binghamton, N. Y. on every bottle.

placing it within the purse limit of her whose wardrobe allowance is moderate. The millinery of 1906 is not unlike the style of 1896, when a woman's hat almost covered her forehead, but the effect sought for the new season is not to conceal the forehead, since the hat is too tiny for that. As much of the front hair is in evidence as ever, for the shape sets almost on top of the head. The tilt forward is only the effect of the high band.

Straw is a popular material for spring hats, also chip and fine crin, while all-lace and all-mousse hats are carrying the day for dressy functions.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bae, Ky. He writes: Twenty years ago I had several hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since. I have cured Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by Short & Haynes Druggists. 50c and \$1.00. Trial bottle free.

"A professional mugwump politician," said James J. Martin of Tam many yesterday, "reminds me of an old woman in Syracuse, who once said: 'Now they have got up a big fuss and fight here on prohibition and divided this community. I am not going to take any sides at all. I am just going to be a nuisance'."--N. Y. Sun.

Rheumatism Makes Life Miserable.

A happy home is the most valuable possession that is within the reach of mankind, but you cannot enjoy its comfort if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. For sale by Short & Haynes, Cloverport.

BIG FIRE.

Mobile, Ala., April 17.--A fire loss estimated at between \$125,000 and \$150,000 was caused last night by the destruction of the saw mill plant and many thousand feet of lumber of the H. E. Turner Company, of Vinger Bend, Ala., a saw mill settlement north of Mobile.

Caught Cold While Hunting a Burglar.

Mr. Wm. Thos. Langran, provincial Constable at Chapeau, Ontario, says: "I caught severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and am completely cured. This remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite where ever its superior excellence has become known. For sale by Short & Haynes, Cloverport.

A Japanese statesman, speaking of the destiny of the Korean, naively remarks:

"David Harum said that fleas were given to a dog to keep him from rusting on the fact that he was a dog. Why not leave the Korean with his enlightenment and a worry or two?"--N. Y. Sun.

Living indoors so much during the winter months creates a sort of a stuffy, want-of-ozone condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headache, salow complexion, etc. Sold by all druggists.

Forfeiture of Railroad Land Title.

Washington April 11.--The Senate committee on public lands to-day authorized a favorable report on the House bill providing for the forfeiture of titles to rights of way across public lands acquired by railroads under that of 1875 when the railroads projected were not built within the five year limit fixed by law. Many thousands of miles of railroads were projected and not built and the plans on file in the general land office place clouds on the lands involved.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. This is nothing better. For sale by Short & Haynes, Cloverport.

The records of official places distributed shows that the rough riders were also easy sitters in the piping times of peace.

Much of the criticism of the Senate is unjust, but it might be remarked, if not unparliamentary, that the Senate is fond of debate.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of grippe with all its miserable symptoms," says Mr. J. S. Eggleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, adding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."--Sold by Short & Haynes.

Devil's Island Torture

Is no worse than the terrible case of Piles that afflicted me 10 years. Then I was advised to apply Bucklen's Arnica Salve, and lo! that a box permanently cured me, writes L. S. Napier, of Rogers, Ky. Heals all wounds, Burns and Scors like magic. 25c at Short & Haynes, druggists.

The British post office has a large surplus annually, but its telegraph department is conducted at a yearly loss of \$6,000,000, though the lines when taken over by the government were making a net profit of \$1,700,000. The results of public ownership are not all of kind.

April weeps.

April smiles:

Woman threatens.

Then bargains.

Rain or shine,

Who can find?

Who can tell

A woman's mind?

April's tears

Bring blooms of May:

Woman's weeping

Gets her way.

April's mild and

April's chill:

Warm and cold is

Woman's will.

Speaker Cannon would lose much of his universal popularity if he should, in the end, be held to personal responsibility for the failure of Oklahoma's statehood. This speaker is doubtless well advised of this that he saw the end before he started the beginning of the game. It has been said of him in the Danville district that his only defect for Congress was a divine providing of the exposition needed to clinch the case.

The London Saturday Review says the British empire has conquered most of the barbarians of the earth, but failed to form a real political union with communities of its own stock. Taking this view for a text, the Review asks if there is such a thing as the British empire. The answer is affirmative, but not on the plan of a Roman emperor nor that of King George III.

ANNOUNCEMENT.

For Congress.

We are authorized to announce the HON.
BEN JOHNSON, of Nelson county, as a
candidate for Congress in the Fourth Con-
gressional District, subject to the action of
the Democratic party.

The best thing American Society of
Equity can do is to keep out of politics.

The ploughs are moving at a lively
rate all along the line from Henderson
to Louisville.

Gen. J. Franklin Bell, of Kentucky
has been appointed chief of staff of the
United States army.

The county judge of Calloway
county was offered and increase in
salary by the Fiscal court but refused
it. How strange! No graft in this man.

Capt. Sawyer has not yet named and
christened his new boat but there is
one thing he must not fail to do and
that is to put on her stern "Built in
Cloveport."

Harrodsburg local opinion people are
trying to get an election to vote
whiskey out of their town. They hope
to have the election June 15. The
News wishes them success.

The Elizabethtown News devotes a
column and a half of its editorial space
in what seems to be a half-hearted
eulogy of Gov. Beckham because he
has announced himself for the Senate.

David Moreland, of Ohio county, has
been elected State President of the
American Society of Equity. Mr.
Moreland has always been a farmer,
and said to have been a successful one.

Judge James E. Cantrell of the Ap-
pelate Bench of Kentucky, draws \$5,
000 a year salary regardless of the fact
that he has never been able to render
the State any service on account of
bad health.

Lamb sold recently in Louisville at
9 cents and hogs at \$6.65. W. R.
Moorman, Jr., of Glendene, sold a car
load of hogs which netted him \$1,000.
Here is a young man who is making
his mark in farming.

Musketo is the way Mr. Carnegie
spells it. But why trouble our selves
about the pecky rate (Carnegie-way).
This town is so clean and well kept
that Mr. Musketo will never find any-
thing in it to his taste.

Col. Noel Gaines, Kentucky's in-
spector general, will begin on June 1,
the publication of a strictly Ken-
tucky magazine called "The Crusa-
der." The magazine proposes to wage
war on vice in all of its forms.

The tax payers don't want to give
up their good money to teach a man
to build roads when they can get one
with experience and one who knows
how at the same price. The tax payers
ought to have some say when it comes
to spending their money.

Our friend, William Addison tells us
he sold stock amounting to \$450 by
means of the insertion of an eighteen
cent Want Ad in the News. No doubt
about it a News Want Ad is a power.
If you have any thing to sell say so in
our Want Column at one cent a word
and get a better customer and more
customers for your stuff.

Under the circumstances and con-
sidering the very large petition that
went up from this district asking that
Charles Bohler be appointed Road
supervisor, Squire John Jennings
could do no nicer thing than to de-

cline to accept the place. This act
would give him a prestige with the
people worth more to him than the
office or the influence of the "gang"
either. The people have no fault to
find with Squire Jennings as a man,
they all like him and respect him, but
they don't think he has the experience
and the qualities that go to make a
good road man.

Percy Board is one of the most en-
thusiastic young farmers we have met
in a long time. His soul, body and
mind are wrapped up in his work. It
is no fad of his either. He is in the
business because he loves it and likes
to farm. Board is working for results.
Another quality he has which is quite
essential and that is, he is a worker
himself, knows how to farm and have
a farm carried on. He is not afraid
to put out his money either to get land
and implements to work on and work
with. He tells me that he has just
brought the Vic Robertson tract lying
on the Pike and adjoining his home
place and the Squires place. This
gives him about 400 acres of the best
land in the county, well watered, well
located making an ideal farm as well
as an ideal home. Watch Percy for
results in farming.

Talking about "pure food" and "old
time cooking" you get both down at
Henry Herndon's Hotel Henderson.
Following are a few, items from his
bill of fare for dinner. Cooked in the
old home style, fresh and crisp, served
in order and promptly. Jowl and
varnup greens with poached eggs.
Roast chicken, coffee dressing. Old
time corn muffins, fresh buttered milk.
Breast of veal with brown gravy.
Roast beef that melts in your mouth.
Baked sweet potatoes and all the early
vegetables. Bird nest dumpling, but-
ter sauce, the kind that mamma used
to make. Custard pie. Almond ice
cream, cheese, crackers and mixed
nuts. A dinner fit for the gods and
served as no other man can serve it.
Henry said it was just a common
every day dinner that he puts up to
more than fifty guests every day in the
week. He is a great hotel man and
is running about the best one in West-
ern Kentucky.

Breck-nridge county is to have a
Home-Coming Day. The date has not
been set yet but will be arranged for
at the proper time. Judge Moorman
has appointed the several committees.
The News trusts that each man on
these committees will consider his
duties as of the greatest importance
and discharge them with the proper
diligence. We, the people of Brecken-
ridge should make this day a red letter
day in the history of the county. Our
friends and citizens who left us years
ago will come back home to us. Let us
show them that we have made good
during their absence. Let us show these
good brethren that we love them be-
cause they were born in Breckenridge,
because they were reared on the same
hills and in the same valleys in which
we now abide and which we love.
There may be more beautiful fields in
the Bluegrass, there may be finer
horses there, there may be more
wealth, but thank God, there are no
better people in the Bluegrass of Ken-
tucky or in the boundaries of any state
than there are here in dear old Breck-
enridge. Let us all, every body, work
unitedly to make Home-Coming Day
a red letter day.

Cloveport is entirely without pro-
tection from fire. The town has not
even a bucket brigade nor a hand
pump to help out in case of fire should
one break out. Is it not strange when
we think of our disaster of 1901, that
we have not taken steps to protect our-
selves in case the same calamity should
befall us again? We have no positive
assurance that such will not be the
case. We have risen from that great
heap of ashes perchance only to fall.
There are many individuals among us
whose financial loss alone would have
installed a some sort of protection
against fire. It seems to the News
that this is a very important and a very
urgent matter that should come before
the City Council at its next meeting.
The Council is hardly to blame for the
present conditions; the blame should
be placed on every man, every citizen
in Cloveport. All of us have been
stupid in this important matter. But
let us take heed, get to work and have
protection from fire. If the Council

will take action on this matter and
advise some means of raising the
money for the purpose, let every
citizen in town stand by the Council
and bear that part of the expense
which will fall to him without a mur-
mur. It will take money to install fire
protection and if we are informed
rightly the City Treasurer is just
about making both ends meet. But
we must raise the money somehow.
We must have protection from fire. A
flame may burst out at any moment
and blot Cloveport from the map. Let
us get to work and have protection.

Notwithstanding that he will have
no opposition for the Democratic nom-
ination for Congress Hon. Ben John-
son is making a thorough canvass of the
district. He spent last week in the
western end of the district but did not
have time to complete the "rounds"
therefore he is in the same section
again this week. He never does any-
thing by halves.
It must be very pleasing to him to
note that every Democratic newspaper
in the Fourth district has spoken with
much favor of his candidacy for the
nomination for Congress. Not in the
history of Fourth district politics has
the candidacy of such a man met with
such general favor. This is due to the
fact that the people of the district re-
cognize in Mr. Johnson a man who will
make an able Congressman and
one who will be recognized by the peo-
ple of the whole State—maybe the
whole country—as one of the ablest
in Congress.

Three years ago when the editor of
The Sun owned the Breckenridge
Democrat he mentioned Mr. Johnson's
name in connection with the chair-
manship of the Central Committee.
After that we received numerous re-
quests from Democrats in Breckenridge
county asking that Mr. Johnson be
urged to again enter politics each giv-
ing practically the same reason why
this should be done, namely, that he
would make a safe conservative lead-
er one that could at all times be trusted
to do that which would be best for the
party regardless of self interests or the
interests of friends. This is the sort of
an opinion Democrats have had of Mr.
Johnson for a long time and when they
saw that an opportunity would come
for them to honor him they were glad
and expressed themselves.

The newspapers over the district in
speaking with so much favor of Mr.
Johnson's candidacy have merely
voiced the sentiment of nearly every
Democrat in the district.—Springfield
Sun.

the county on which to have the grand jubilee. Mr.
Hilday, the proprietor of the Springs, is spending a
great deal of money on the place and by the Fourth of
July it will be so transformed into a place of such
magnificent beauty that strangers will hardly know the
famous old place. Mr. Hilday knows what he is
doing and is making great progress in his work.

The people of Hardinsburg and vicinity who have
so largely attended my picnics heretofore are especially
invited to this one, the greatest of all. You will be
looked after in the best of fashion and I will see to it
that you have a good time.

I will announce further particulars of this event in
this paper next week.

Respectfully,
WILLIAM NOBLE PATE.

EDUCATION FOR INDIANS.

"MOTHER KATHERINE" DREXEL SPENDS MILLIONS IN THIS WORK.

Has Founded Many Schools, Employing Indians to Build Them. Only Full-blooded Indian Catholic Priest in the World.

Many thousands of Indian children in Oklahoma and Indian Territory have been educated by means of the "Drexel millions," a large portion of which has for years been devoted to the cause of Indian education by Mother Katherine, formerly Miss Kate Drexel, of Philadelphia, sister of John H. Drexel, banker and sugar magnate, and closely related to the others of the same name who have made it famous in the world of finance.

Mother Katherine who started the Indian school at Chillicothe, which has now been taken in charge by the government, and made the principal Indian training school of the Southwest. The two schools at Pawhuska, in Pottawatomie county, are also monuments of her bounty.

She keeps in close touch with her work, and visits the Oklahoma schools in which she is interested at least once a year. She is usually accompanied by her sister, who is also deeply in-

terested in the work, and who heartily approves it, in common with the other members of the family. All of the millions she has expended for Indian education have been employed under direction of the Interior Department, as her long study of the Indian problem is recognized to have made her one of the best authorities on the subject in the country.

Planned the Buildings Personally. The St. Louis and St. John schools at Pawhuska, both founded by Mother Katherine a number of years ago, are good examples of the work she is doing for the education of the Indians. Both have handsome and commodious buildings, planned personally by Mother Katherine, and have given hundreds of Ojage children their first knowledge of the white man's learning. Many of the teachers are themselves Indians, graduates of these or similar schools, who have entered with enthusiasm into the education of their fellow tribesmen. The Ojage schools receive some assistance from the government, and their scope is greatly widened by the orders now in effect from the agency office that every Ojage child of school age must be in school in order to draw its share at the annuity payments.

Used Indian Labor. While Mother Katherine's beneficence has always been liberal, it is no plan to let the Indians do the work whenever possible, in the construction of buildings and work of a similar character. When the Sacred Heart school burned five years ago, and was rebuilt Pottawatomie and Kickapoo Indians made the brick for the new structure, and did much of the work towards its construction, working, of course, under the direction of a white contractor. Much of the maintenance of this school, which is claimed to be the oldest west of the Mississippi river, is borne by Mother Katherine, and was by her visits to this school that she discovered Albert Nezhadmet, the full-blooded Pottawatomie boy educated by her, and who is now the only full-blooded Indian Catholic priest in the world. After his graduation at Sacred Heart, she paid his expenses through Washington, finally finishing his education at Rome, from whence he returned only two years ago, to take up his work among his own people.

Is Founder of Several Schools. A number of schools of the same sort have been founded and maintained by Mother Katherine, probably the best

LARGEST BATTLESHIP.

TEN MILLION DOLLARS FOR THE CONSTRUCTION OF GIGANTIC "CONSTITUTION."

More Destructive and Terrible than the new Floating Giant, the English "Dreadnaught"—Old "Constitution" to be Saved.

One hundred thousand dollars for the preservation of the old frigate Constitution, and \$10,000,000 for the construction of a huge new battleship of the same name are two provisions to be included in the naval appropriation bill.

The new Constitution is to be the most powerful ship of war afloat. She will excel the British Dreadnaught recently launched by King Edward by as much as the Dreadnaught will excel anything afloat when she is completed. Her authorization may be said to be directly the result of the victory in the sea of Japan. It was the British naval attack on board Togo's flagship who hurried home after that battle and warned the Admiralty of the needs of the British navy, and this brought about the construction of the Dreadnaught. Now we are to follow and eclipse the British naval power.

The Navy Department has secured full information concerning the plans of the Dreadnaught, and the arrangements for her powerful armament, so that it is known exactly what must be done to beat her.

In order that the department may not be impeded in any way in determining upon the plans of the new Constitution the forthcoming bill will provide that the Secretary of the Navy may use the contingent fund to secure information from ship-builders the world over, if he so desires, before finally accepting the design of the ten-million-dollar pacifier.

Provisions for Ship.

This provision for the new American sea fighter is in line with the desire of the President and the earnest recommendation of Admiral Dewey, who recently appeared before the Naval Committee of the House and gave a spirited talk in support of his views as to the necessity of constructing larger and more powerful battleships for the American Navy. At the time the naval estimates were made up last fall, Secretary Bonaparte was opposed to any such increase, but he has since come around to the side of the President, and is now heartily in favor of the committee proposition.

The naval experts in Washington have long been convinced that the 16,000-ton battle ship Michigan and South Carolina, authorized by the last Congress, represent the limit of possibility on a displacement not decidedly greater. To go beyond that, at a price, the fighting efficiency of such ships, it will be necessary to have not only more powerful armament, but higher speed and greater steaming radius, to gain which there must be heavier and more powerful machinery and greater coal-carrying capacity.

The displacement of the Dreadnaught is but 2,000 tons greater than that of the Michigan or the South Carolina. Naval construction ex-

cessary to develop high speed, or the greater bunker capacity essential to wider steaming radius. They point out that in the Dreadnaught it was attempted to preserve two of those factors, gun power and speed, but that to do so it was necessary to sacrifice the armor protection, which they believe such a battle-ship should have.

No Limit to Cost.

No sacrifice in armament, speed, or steaming radius will have to be made in designing the new Constitution. The only limitation placed upon the Secretary of the Navy by the Naval Affairs Committee is that her hull and machinery shall not cost more than \$8,000,000. The provision for the battleships Michigan and South Carolina, now the largest ships building for the navy, was \$4,000,000 each, and there is no doubt in the minds of the members of the committee that if the Secretary decides to go to 20,000 tons or beyond, the extra \$2,000,000 now provided will easily accomplish it.

It is estimated that the armor and armament for the ship will cost somewhere in the neighborhood of \$3,500,000 in addition to the hull and machinery, and that other fittings will bring the total for the new Constitution up approximately to \$10,000,000. The Dreadnaught is planned to carry ten 12-inch rifles. The Michigan and South Carolina are to carry eight 12-inch guns. The Dreadnaught will be able to concentrate six guns for bow or stern fire, with eight on either broadside, while the American ships can use four guns dead ahead or dead astern, and all eight ahead or astern on a quartering fire, with all eight on either broadside. So that in point of fire they are nearly as efficient as the Dreadnaught, which excels materially only in the single point of speed. To counterbalance this the American ships have the decided advantage in armor protection.

The Advantage of Guns.

The Constitution will have as high speed as the Dreadnaught, and the double advantage over the British ship of greater gun power and more complete armor protection. She will be more able to inflict blows and better able to withstand them. She will carry twelve 12-inch rifles, so arranged that she can concentrate eight of them in firing dead ahead or dead astern, or off the bow or quarter, and ten on either broadside.

Chewing Gum vs. Missions.

The twenty-seventh annual meeting of the Women's Foreign Mission Society of the Presbytery of Washington, held recently, disclosed the fact that three and a half million dollars a year more is spent for chewing gum than for foreign missions. In other words, \$15,000,000 is spent for gum and only \$7,500,000 for missions. Carefully compiled data show that \$17,000,000 a year goes for candy, \$70,000,000 for jewelry, and tobacco and military go away, up late in the season, tobacco considerably in the lead.

The Kerosene Lamp.

The ordinary kerosene lamp is the best illustration of the highest type of combustion furnace. The hot gases, passing up through the narrow throat of the chimney draw the colder air through the hot wire gauze at the bottom and bring it near a temperature which will feed combustion and

OLD MAINE NOW YOUNG.

PAPER MAKING HAS DONE MUCH TO DEVELOP OLD NEW ENGLAND STATE.

Intelligent Forestry Will Perpetuate The Maine Woods and Furnish Fuel for Paper-Making to Future Generations.

When one stops to think of the tremendous and almost magic growth of the distant West it seems strange that even an old state as Maine is still largely unknown and unsettled.

Almost immediately after the Revolutionary War the settlement of Maine began by inhabitants of other parts of New England and its growth has been steady and sure, with the exception of the years of, and immediately following the Civil War. The population, however, has been almost entirely confined to the lower half of the state and only very recently have the immense possibilities and resources of the northern half been realized.

It is estimated that at least 200,000 natives of Maine are scattered throughout the other parts of the country at the present time. Had this vast army remained to develop their native state it is impossible to realize the chance that it has

lands and placed the cutting of all timber under the direction of the Government Forestry Bureau. A copy of experts was sent into the Maine woods and a close study made of the trees growing on each acre of this company's holdings. A plan was agreed upon which assures a perpetual supply of timber. No tree under nine inches in diameter is to be cut. At the end of sixteen years the spruce growth will have renewed itself again and under this plan the entire three hundred thousand acres may be cut over every sixteen years. At Rumford Falls on the Androscoggin in western Maine about 54,000 horse power is now utilized, and a recent state report says that 48,000 additional horse power is available from this stream alone.

Beyond doubt the railroads of Maine are responsible for the opening and development of the upper half of this state, as in years ago only thirty or forty miles of railway were built north of the centre and manufacturing or farming was almost unknown above this point.

Capitalists at last realized what a vast amount of valuable territory was being ignored, and built branch lines into the "wilderness" until now there are nearly 500 miles of tracks connecting thriving cities and towns which have sprung up in the wake of the steel bands.

The advent of the railroad in

Is Founder of Several Schools.

A number of schools of the same sort have been founded and maintained by Mother Katherine, probably the best

history in the United States governed directly from France. Its first boat was Father Felix DeGrose, a French descendant of the famous French admiral. Upon his death two years ago he was succeeded by Father Murphy, a native of Savannah, Ga., and the first man of American birth to join the brotherhood at Sacred Heart.

BERNHARDT OUTWITS TRUST.

Denied Playhouses by Theatre Combine, She Plays to Vast Audience

Mrs. Sarah Bernhardt, the celebrated actress has entered the arena as a trust-buster. After making preparations for bookings in Texas, she found the playhouses of the state closed to her on account of the patronage of the theatre syndicate. In Texas, therefore, she was compelled to appear in a tent. A week of two ago, a novel method of producing a play was inaugurated at Dallas, when Sarah played "Camille" in a big circus tent, with an audience of 5,000 persons.

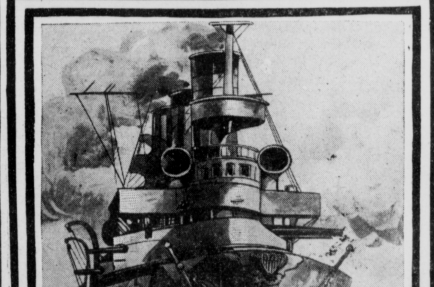

During the performance fully 10,000 persons crowded around the tent and would have paid to get in if it had been big enough. As it was the tent seats only 4,200 and 800 had to stand or sit on the ground. It was the most novel wild west show ever seen. The tent was a huge affair, and from the outside looked big enough to house a three-act circus.

The novelty of playing in a circus tent appealed to the actress and she gave her interpretation of the character of "Camille" as naturally, as cleverly, and with as much force and power as if confronted by an audience of New Yorkers or Parisians in the most modern of theatres. The thousands who greeted Mrs. Bernhardt at Dallas desired as much to show their respect for her fight against the trust as to be entertained by her matchless talent as an actress.

Mrs. Bernhardt made arrangements to appear in the next act at Waco and Austin, Texas, and Oklahoma City, Oklahoma Territory. In the Texas cities on her itinerary large halls were secured and specially equipped for the performance.

Hopeless Ignorance.

Flynn—"Of tell yer the's no use thyrin' to idicate thim Chinoes." Mulhoo—"An' awh, they's no thim thyrin'—'On jist asked w'n or thim Chinoes wur-rud for St. Patrick's day, an' be'ad, he couldn't tell me."

prevent smoke by chilling the vapors. The limits in the construction of such a furnace are easily seen. When the wick is raised a little the combustion is greater than the capacity of the furnace, and smoke results. When the chimney is raised from the bottom too much cold air enters, the fire is chilled, and again we have smoke.

been made, as nature has done so much and man so little.

The timber lands of northern Maine are, of land still remain played and unimproved, waiting for the enterprising man to make large returns. The resources are almost beyond limit or belief.

Thousands of Lakes and Rivers.

In this state alone there are over five thousand rivers and streams with more than fifteen hundred lakes as reservoirs, to furnish power for innumerable manufacturing plants. Besides natural water power, Maine is rich in timber, which in this age is a most valuable asset.

The timber lands of northern Maine can, with judicious management, be made to yield for generation after generation and supply a vast amount of lumber and wood pulp. The largest paper mill in the world, is located at Millinocket on a small branch of the Penobscot River where a drop of one hundred and fifty feet furnishes 25,000-horsepower. From this mill is turned out each day between 150 and 180 tons of newspaper, made from wood pulp.

It is commonly supposed that paper making from wood-pulp is one of the greatest menaces to our forests, but exactly the opposite is the case where the forests are handled intelligently.

The modern policies adopted by many paper makers in regard to perpetuating the forests are doing much for the cause of forestry.

One Maine company has secured the ownership of 300,000 acres of forest

northern Maine has increased the value of timber lands over 250 per cent and timber which before was too remote has become available for marketing purposes.

Capital from Canada.

It is to be regretted perhaps from an American standpoint that a large part of the capital employed in developing this "new old state" has been furnished by Canada, the Canadians rather than by New Englanders themselves.

The farming possibilities of Maine are almost as great as the water power and timber business offer, as it has been demonstrated that the soil and climate are particularly adapted to the raising of potatoes on a large scale, over 10,000 bushels having been produced at various parts of the country in 1904.

The railroad officials realized from the start that, in order to settle and build up the country through their brand, it ran the freight rates must be low enough to enable manufacturers to compete with more accessible factories, and have borne this

SHIRT WAIST MODELS.**

There are always a certain few designers who win for themselves widespread favor because of their practical attractiveness. Here is sketched one of the most popular models and one universally liked by those who have used it. The narrow tucks—on the shoulders—(optional if preferred)—and just right for a modish fullness and excellent set while the yoke which points down a bit in the centre of the back extends over the shoulders far enough to suggest shoulder straps and hence, breadth of line; the sleeve is the real shirt sleeve with the narrow cuff fastened with links. This is the sleeve par excellence among the new shirt blouse models. Any sensible model may serve for the waist which is well adapted to rubbing. In the medium size 3½ yards of 26-inch material are needed.

Washington Letter.

Washington, April 12.—A new executive mansion for the President of the United States, to be located nearly a mile further from the center of the city than at present which shall in every way be splendidly fitted up and finished, is the plan over which Washington is considerably stirred up at present. It is reported at the Capitol that the President has been approached on the subject, and that he has indicated his enthusiasm in no uncertain tones. To meet the objections of patriotic Americans to the abandonment of the present White House, those who are furthering the plan propose that it shall not be actually abandoned, but shall be used either as the residence of the Vice President or for officers of the President. But even these suggestions can not quell the opposition to the plan, of those who remember that the White House has been the residence of all the Presidents from George Washington to Roosevelt, in an unbroken line, except for the temporary lapse occasioned by its partial burning when the British captured the city in 1814, and who therefore rightly look upon it as the center and source of patriotic association. From those, also, who look with pride upon the plain yet impressive White House as the very emblem of democratic simplicity, the proposal to provide an executive castle will bring lasting opposition. Of course, it is true that the growth of executive business demands increased accommodations, but it seems to be the general opinion here that the White House grounds afford ample room to provide for additions sufficient to accommodate the growth of many years.

Three is reason to believe that a vote will be had on the Hepburn bill in the near future. The able speech of Senator Bailey this week has cleared the political atmosphere. While the Texian did not deal directly with the Hepburn measure, but devoted himself to a discussion of the right of Congress to prohibit the lower courts from setting aside temporarily the orders of the Interstate Commerce Commission pending appeal, his argument served to disclose the attitude of the Senate majority. This disclosure has resulted in the first clear-cut alignment of the different factions. The radicals realize the impossibility of the passage of any amendment restricting full court review, and their acknowledgement of this fact has removed the principal cause of the deadlock. A growing majority is said to be in favor, also, of an amendment providing suspension of the Commission's rate orders when they are being reviewed in court, and the current filing bonds in each case to cover the amount in action. Altogether, the prospects for the enactment of conservative and efficient legislation at an early date are much brighter.

Uncle Sam's ships may be compelled to adopt the new plan in vogue in the Japanese navy, and cruise under canvas in times of peace. Exemption of funds for the purchase of fuel, the failure of Congress to appropriate a sufficient amount to buy all that will be required during the year, and the projected increase in the price of coal by reason of the strike, have resulted in orders being issued by the Navy Department of the greatest economy. No cruises that are not absolutely necessary will be taken this year by American warships.

Julius I. Lyons of New York descended on Secretary Bonaparte this week and endeavored to prove that the country's greatest need was a new national hymn. He contended that a "The Star Spangled Banner" was "unsingable" and that "America" was English. His plan is to enlist the support of the administration and then offer a prize for a new song, but much to his surprise, Secretary Bonaparte failed to endorse. The Secretary told his visitor that he did not believe a national song could ever become popular unless connected with some significant event in the nation's history.

Weather predictions for any given day six months in advance, may be made possible through investigations now under way by the Smithsonian Institution. Scientists are completing their observations of the sun's radiation, and, when the causes of these radiations have been reduced to a definite understanding, astronomers will be enabled to tell, months in advance, whether any given season will be dry or wet, warm or cold. Prof. C. G. Abbot, of the Smithsonian Institution, has just left for California, where he will continue his work in the observatory of the Carnegie Institute there, which has been placed at his disposal. He expects to complete his observations by October.

Modern science may discover that the reason why the barefoot American boy these days would far rather go fishing than do the "chores" is due entirely to the honeycombing of this system by the "lax" bug. This bug is a Porto Rican product, but its day of power is past in that island since the natives have been converted to the use of shoes. Governor Vinthrop informed the House Committee on Insular Affairs this week that the bug has been found to be small parasite which works through the feet and up the body to find lodgement in the intestines. The "tired feeling" quickly follows. Government scientists do not feel alarmed over the possibility that the "lax bug" will invade this country, but the barefoot American youth should shun the Porto Rican parasite as far more dangerous than the "chigger".

If the child labor law passes the Senate it is safe to predict that the cause providing that the measure apply to the Senate and the House will be stricken out. If carried into effect as it now stands, the law would sound the knell of the paper who now scurry around the two chambers at the beck and call of Congressmen. The Senators contend that while the boys may not attend school regularly in the day time, they gain a broadening

experience that is a liberal education in itself. Senators Gorman of Maryland, and Mallory of Florida, were pages at one time, and many of their companions of those days became officers in the army and navy and successful men in other walks of life.

One of the largest checks received by the "conscience fund" for some time reached Secretary Shaw this week. It was for \$120, and the draft was drawn on New York bank. On its face it bore the information that it was intended for the special fund to which it has been added, but the conscience-stricken person who drew it did not send his name nor divulge the reason for such heavy restitution.

MAYO.

It's Going to be Built.

Dundee Ohio county, Ky., April 14.—Editor of Breckenridge News, Cloverport, Ky.—I see in your editorial column of April 11 that you are really anxious to know whether that Madisonville road will ever be built or not.

Now, Mr. Editor, if you will take my word for it, that Madisonville road is going to be built. If you don't believe it, come down to Dundee, Ohio county, Kentucky, "the Garden Spot of Ohio county," about June 1 and I will show you the real thing in the way of railroad construction.

This is the truth, Uncle John, no doubt about it.

Your magazine section is good. I like it very much. The Breckenridge News always has been the best county paper I ever saw.

Breckenridge county is all right except one thing. It ought to have a stock law. You should vote a general stock law Ohio county has one and it is the best law we have ever had. It is a whole lot easier to fence against your own stock than every one else's stock.

LAUGH.

(By Alla Wheeler Wilcox.)
Laugh, and the world laughs with you;
Weep, and you weep alone!
For the sad old earth must borrow its mirth,

But use trouble enough of its own.
Sing, and the hills will answer;
Sigh, it is lost on the air—
The echoes bound to a joyful sound
But shrink from voicing care.

Rejoice, and men will seek you;
Grieve, and they turn and go.
They want full measure of all your pleasure,
But they do not need your woe.
Be glad, and your friends are many;
Be sad, and you lose them all.
There are none to despoil your nectar'd wine,

But alone you must drink life's gall.
Feast, and your halls are crowded;
Fast, and the world goes by.
Succeed and give, and it helps you live,
But no man can help you die.
There is room in the halls of pleasure
For a large and lordly train,
But none by one we must all file on
Through the narrow passes of pain.

Indian Proverbs.

The coward shoots with shut eyes.
No Indian ever sold his daughter for a name.

Before the pale face came there was no poison in the Indian's corn.
Small things talk loud to the Indian's eye.

When a fox walks lame old rabbit jumps.
The pale face's arm is longer than his word.

A squaw's tongue runs faster than the wind's legs.

There is nothing so eloquent as a rattlesnake's tail.

The Indian scalps his enemy, the pale face skins his friends.

There will be hungry pale faces so long as there is any Indian land to swallow.

When a man prays one day and steals six, the Great Spirit thunders and the evil one laughs.

The recent Legislature passed the following law to regulate the carrying, moving, delivering, transferring or distributing of intoxicating liquors in local option districts.

Be it enacted by the General Assembly of the Commonwealth of Kentucky, it shall be unlawful for any person, persons, individual or corporation, public or private carrier to bring into, transfer to other person, corporation, carrier or agent: deliver or distribute, in any county, district, precinct, town or city, where the sale of intoxicating liquor has been prohibited whether by special act of the General Assembly or by vote of the people under option law, any spirituous, vinous, malt or other intoxicating liquors, regardless of the name by which it may be called; and this act shall apply to all packages of such intoxicating liquors, whether broken or unbroken.

Provided, individuals may bring into such districts upon their person or as their personal baggage, and for their private use, such liquors in quantity not to exceed one gallon and, provided provisionally this act shall not apply to licensed physicians or druggists, to whom an public carrier may deliver such goods in unbroken packages, quantity not to exceed five gallons at any one time.

Each package of such spirituous, vinous, malt or other intoxicating liquor, regardless of the name by which it may be called, whether of broken or unbroken packages, brought into or transferred to other person, corporation, carrier on local, delivered or distributed in any local option territory shall constitute a separate offense. Any person or persons, individual or corporation, public or private carrier violating the provisions of this act shall be deemed guilty of violating the local option law and shall be fined not less than fifty cents nor more than one hundred dollars for each offense.

And the place of delivery of such liquors shall be held to be the place of sale, provided, further that the provisions of this act shall only apply to common carriers, corporations firms or individuals who usually carry freight or goods for hire, and firms common carriers, corporations or individuals who receive pay for conveying vinous, malt or spirituous liquors shall be deemed a violator of the provisions hereto.

All laws in conflict with this act are hereby repealed.

Woman's Trials.

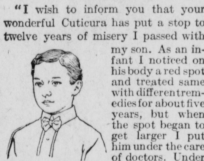

The bitter trial in a woman's life is to be a childless. Who can tell how hard the struggle may have been for a woman who has been barren for so long? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fertility to thousands of barren women, to the great joy of the household. In other, but rare cases, the obstacle to the bearing of children has been found to be of a surgical character, but easily removable by the most successful treatment at the Invalide Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. J. C. Pierce of New York, the famous presides. In all cases where children are desired and the obstacle to child-bearing is made to find out the real cause, and it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prostrations, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its effect in the system of thousands of cures—more in fact than any other remedy put up for sale through the world, especially for women's use. The ingredients of which the "Favorite Prescription" is composed, have been the subject of positive endorsement from the leading medical writers on the subject of women's ailments, and the several schools of practice. All the same will bear the most careful examination. Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

CHILD'S AWFUL SKIN HUMOR

Screamed with Pain—Suffering Nearly Broke Parent's Heart—Twelve Years of Misery—Doctor Called Case Incurable—Helped from First, and

SPEEDILY CURED BY CUTICURA REMEDIES

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The doctor then treated him with the worst I fear. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to live, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable and gave it up as a bad job. One evening I read an article in the paper about the wonderful Cuticura and decided to give it a trial. I told you that Cuticura Ointment is worth its weight in gold; and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment, and Resolvent my child was cured. He is now twelve years old and his skin is as fine and smooth as silk. (Signed) Michael Steinman, 7 Summer Avenue, Brooklyn, N. Y., April 16, 1906.

MOB THREATENS.

Bedford, Ind., April 17.—Prosecuting Attorney Fletcher to-night announced he would at once start legal proceedings against the members of the mob who last night drove Deputy Prosecutor J. H. France and Town Marshal Henry Sutton from Oolitic, Ind. The matter will be brought before and grand jury. France and Justice Oliver McLaughlin of Oolitic are in Bedford and fear their return. Leaders of the mob sent their word to-night that if they again appeared at Oolitic they would be lynched.

The Reasonableness of Woman's Suffrage.

That woman should have equal suffrage with men seems so reasonable to the unprejudiced mind that it has no need of argument. The burden of proof surely ought to be with the denier of this contention. It is a universal proverb that no great man has ever been born who did not have a great mother. And yet the wisdom of the countries must find Waterloo when the ballot takes this field.

The old stock argument that woman ought not to have the joint privilege with man of making the laws which govern them both, because after three emperors have been made she has not the power to bear her part in their enforcement and defense has reached such a condition of senility as to be listed alongside of Kipling's "Man Who Was."

When Madame de Staël was banished from the bawdy Napoleon because her pen was mightier than his sword; when Harriet Beecher Stowe could say the last word in her immortal "Uncle Tom's Cabin" that was vitally instrumental in changing the civilization of centuries, freeing both slaves from their masters and masters from their slaves; when that great martyr to the cause of vice annihilation and race emancipation, Francis E. Willard, could accomplish what no man has been able to accomplish, a world deformation for righteousness, it is too late in the day to talk about the helplessness of femininity.

With woman predominating in our high schools and hinting at it in our colleges it is high time to allow the educated mind, without reference to physical manhood, to rule in the realm of government.

YOUR BOY'S HANDICAP.

Be careful how you pamper your boy. There's a man inside of him if you can get it out. But manhood is made by putting flesh and blood and soul up against sharp corners. It is a cruel process but the only one.

It is natural for a parent to try to shield his child from the hardships the parents went through. And so the boy sleeps late and finds fault with his breakfast and talks impudently to his mother. The home is padded for him. His schooling costs him nothing. There is money in his pockets that he never earned. Everything is done for him instead of by him. And an estate is accumulating for his use.

All this is fatality. But it is not wise. You are simply taking away the boy's chance to make a man of himself. Some time somehow, he must grow strong by striving. He will never learn to swim without breasting the swift currents.

You can save him suffering. But character is perfected by striving. Useless he meets and masters difficulties he will always be a flabby weakling. And you may leave him money but he will not know how to use or save it. He will lack fiber. You cheat him of the chance to get it. He will lack sympathy for the striving togetherness with those who climb upward. Because you shielded him.

Life will give no man his own. He must climb up and take it.

Hard lines for your boy? Yes, for us all. Self reliance is at the base of all that is good and strong. Don't pamper your boy. Let him use himself to make himself. The greatest handicap to the child of the well-to-do is that he has too much done for him. Give your boy a chance. Let him make a man of himself by himself and for himself—Cincinnati Post.

FROM THE PREFACE

"In every situation General Lee was a great, a dominant figure. The character of Lee has been somewhat lost sight of in the study of his career, but a fairly glow with all that is high and noble and true. The Bayard of the South exhibits the characteristics of the Christian gentleman to the full. He is a personality to be studied, to be followed, to be loved. In his greatness and in his simplicity he is an enduring inspiration to true manhood for all America—the world even."

The Patriots

By CYRUS TOWNSEND BRADY Author of "The Southerners," etc.

□ A War-time story in all its aspects. It opens with a chapter in the life of Lee, woven around the hour in which he decided to take up arms for Virginia and the Southland.

□ There is a dual love story—a vein of the most tender and sweetest sentiment running through the pages.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour eructations, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach. Mr. S. C. Ball, of Ravenswood, W. Va., writes: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in our family."
